

Important changes for users of GCSX email addresses

Following a government announcement in 2016 about the future of GCSx secure email, Birmingham City Council has implemented government guidance on how public sector email services should be secured.

This enables Birmingham City Council to exchange emails securely with other organisations that have adopted these standards.

The public sector organisations listed below are known to have adopted the required standards. The Egress secure email service will be used in cases where it is not certain whether an organisation is using the government secure email service.

Local Authorities - Transport Layer Security (TLS) enabled
